

Request For Proposal

The City of Sand Point is accepting proposals for your services to remove old flooring, lay and finish new flooring, and fix wall damage at the Sand Point Clinic. To maintain a clean environment for patient care, the clinic floors and walls need to be constructed of durable material to eliminate the likely occurrence of cracks. The damage to the walls needs to be repaired and painted so that it is easy to keep clean. The area is approximately 5,000 square feet.

The desired starting date is flexible from June 2025, with completion by September 2025.

Please email your proposal to the City Administrator at dschmit@sandpointak.org by 5:00 PM on June 14, 2025. You may also email us with any questions about the scope of work.

This Request for Proposal (RFP) solicits proposals from various candidates, conducts a fair evaluation based on the prescribed criteria, and selects the candidate who is/is the best fit for the project.

The City of Sand Point reserves the right to award contracts as they see fit and to the bidder or bidders when and how appropriate.
