Independent Auditor's Report

Honorable Mayor and City Council City of Sand Point, Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sand Point, Alaska, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Sand Point's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

 $\ensuremath{\mathsf{BDO}}$ is the brand name for the $\ensuremath{\mathsf{BDO}}$ network and for each of the $\ensuremath{\mathsf{BDO}}$ Member Firms.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sand Point, Alaska, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 36 and the Schedules of Net Pension Liability and Pension Contributions on pages 37 through 39, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary and Other Information

Our audit for the year ended June 30, 2017 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules for the year ended June 30, 2017 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the City of Sand Point as of and for the year ended June 30, 2016 (not presented herein), and have issued our report thereon dated February 25, 2017 which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. The individual fund financial statements and schedules for the year ended June 30, 2016 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the June 30, 2016 financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2016 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2016.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 9, 2018 on our consideration of City of Sand Point's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Sand Point's internal control over financial reporting and compliance.

BDO USA, LLP

Fund Balances, ending	\$ 3,722,242	\$ 215,289	\$ 3,937,531

Reconciliation of Change in Fund Balances of Governmental Funds to Statement of Activities

Year Ended June 30, 2017

Net change in fund balances - total governmental funds	\$ 46,715
The change in net position reported for governmental activities in the Statement of Activities is different because:	
Governmental funds report capital outlays as expenditures. However in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$760,753) exceeded capital outlays (\$33,084) in the current year and other miscellaneous transactions (\$1,325).	(728,994)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. Increase in accrued leave Net increase in net pension liability and related deferred accounts	 (11,992) (369,514)
Change in Net Position of Governmental Activities	\$ (1,063,785)

1. Summary of Significant Accounting Policies

Reporting Entity

The City of Sand Point was incorporated in 1966 and has operated as a first-class city since 1978 under a council/mayor form of government. The City provides a full range of services to its citizens including, but not limited to, public safety, streets, health and social services, water and sewer, refuse collection, boat harbor, and general administration.

The basic principle used in determining the scope of the entity for financial reporting purposes is the exercise of oversight responsibility over other governmental units by the City's elected officials. Oversight responsibility is derived from the governmental unit's power and includes, but is not limited to, financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. No other entities exist for which the City has oversight responsibility.

The accounting policies of City of Sand Point conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies:

Government-Wide and Fund Financial Statements

Government-wide financial statements include the statement of net position and statement of activities. These statements report financial information for the City as a whole. Individual funds are not displayed, but statements distinguish governmental activities from business-type activities which are generally financed in whole or in part with fees charged to external customers. The statement of activities reports expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities; and (3) capital grants and contributions which fund acquisition, construction, or rehabilitation of capital assets and include fees to developers. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenues.

Separate financial statements are provided for governmental and proprietary funds. Major individual governmental and proprietary funds are reported in separate columns with composite columns for nonmajor funds.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and proprietary fund financial statements report using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of the related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Notes to Basic Financial Statements

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The City considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only to the extent they have matured.

Major revenue sources susceptible to accrual include charges for services, intergovernmental revenues and investment income. In general, other revenues are recognized when received.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. In addition, general revenues include all taxes, investment income, and State and federal entitlement revenues.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds are charges to customers for sales and services. Operating expenses for the Enterprise Funds include the costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Major Funds

The City reports the following major governmental fund:

General Fund - Reports as the primary fund of the City. This fund is used to account for all financial resources not reported in other funds.

The City reports the following major proprietary funds:

Bingo Enterprise Fund - to account for gaming activities. Boat Harbor Enterprise Fund - to account for activities of the boat harbor. Water and Sewer Enterprise Fund - to account for water and sewer utilities. Refuse Enterprise Fund - to account for activities of the refuse services.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the City considers all cash and investments to be cash equivalents. The central treasury, which holds cash and investments, is used essentially as a cash management pool by each fund.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Notes to Basic Financial Statements

Receivables and Payables

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds." Long-term loans between funds are classified as "advances to/from other funds." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

At the governmental fund financial reporting level, an "advance receivable" is offset by nonspendable fund balance in the General Fund to indicate that it is not available for general appropriation.

Capital Assets

The City's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. Donated assets are stated at fair value on the date donated. The City generally capitalizes assets with a cost of \$5,000 or more as purchase and construction outlays occur. Costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded.

Estimated useful lives in years for depreciable assets are as follows:

	Years
Buildings and improvements	20-40
Machinery	5-10
Equipment and vehicles	5-10
Improvements other than buildings	10-20
Landfill	32

Compensated Absences

It is the City's policy to allow employees to accumulate earned but unused annual leave. Compensated absences are reported as accrued in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Unearned Revenue

Amounts for which asset recognition criteria have been met but for which revenue recognition criteria have not been met are recorded as unearned revenue.

Long-term Debt

In government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Governmental fund financial statements recognize proceeds of debt and premiums as other financing sources of the current period.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement System (PERS) and additions to/from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources:

Nonspendable fund balance - This classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

Restricted fund balance - This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance - These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the City Council—the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the City Council removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance - This classification reflects the amounts constrained by the City's "intent" to be used for specific purposes, but are neither restricted nor committed. The City Council has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance - This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first, then unrestricted resources-committed, assigned, and unassigned-in order as needed.

Use of Estimates

Preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect amounts reported in these financial statements. Accordingly, actual results could differ from those estimates.

Budgetary Accounting

The annual City operating budget is prepared by management in the spring preceding the fiscal year to which it relates. The budget is submitted to the City Council for review and approval. Legal enactment of the budget is obtained through passage of a City ordinance. Amendments to the budget can occur any time during the fiscal year through City Council action.

The budget is enacted at the department level. The budget for the General Fund is adopted on a basis consistent with accounting principles generally accepted in the United State of America.

Grants and Other Intergovernmental Revenues

In applying the measurable and available concept to grants and intergovernmental revenues, legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts are considered "earned"; therefore, revenues are recognized based on expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the measurable and available criteria are met.

2. Cash and Investments

Reconciliation of Deposit and Investment Balances

The following is a reconciliation of the City's deposit and investment balances to the financial statements as of June 30, 2017.

	Totals
Deposit accounts and cash on hand Pooled investment	\$ 982,881 2,284,226
Total Cash and Investments	\$ 3,267,107

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a policy for custodial credit risk. At June 30, 2017, \$250,000 of the City's Wells Fargo bank deposits and \$250,000 of the City's Alaska USA bank deposits were insured by the Federal Deposit Insurance Corporation. The remaining balance of deposits were uninsured and uncollateralized. The Pooled Investment (AMLIP, see below) is not subject to custodial credit risk.

Investments

Municipal code allows the City to invest in the following items:

- a) Cash reserves of other public entities
- b) Alaska Municipal League Investment Pool

Pooled investments are invested with the Alaska Municipal League Investment Pool, Inc. (AMLIP). The AMLIP is an external investment pool which is rated AAAm for credit risk purposes. Alaska Statute 37.23 establishes regulatory oversight of the pool. The law sets forth numerous requirements regarding authorized investments and reporting. The City's investment in AMLIP of \$2,284,226 is measured at net asset value, as of June 30, 2017. Management believes these values approximate fair value.

The City has investments in certificate of deposits totaling \$405,592 that are not held at fair value, but instead recorded at amortized cost, as of June 30, 2017.

Southwest Governments, LLC

The City holds a 20% interest in Southwest Governments, LLC, a company that owns and rents an office building in Anchorage, Alaska. At June 30, 2017, the City's investment in the LLC was \$271,885. This investment is considered noncurrent, and accordingly, an equal amount of fund balance of the General Fund is shown as nonspendable. In 2017, the City received \$20,007 in cash distributions and its share of earnings of Southwest Governments, LLC was \$14,160, which is included in other revenue.

The City's investment in Southwest Governments, LLC is accounted for under the equity method. Under the equity method, original investments are recorded at cost and adjusted by the City's share of undistributed earnings or losses. The City would recognize an impairment loss when there is a loss in value in the equity method investment which is other than a temporary decline.

3. Receivables and Allowance for Uncollectible Accounts

The City maintains accounts receivable balances of which a portion is reserved as an allowance for doubtful accounts. At June 30, 2017, receivables for the City's individual major funds and nonmajor funds in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

		Boat Harbor	Water and Sewer			
		Enterprise	Enterprise	N	onmajor	
	General	Fund	Fund	Refuse	Funds	Totals
Accounts	\$ 8,867	\$ 107,699	\$ 45,908	\$ 34,020	-	\$ 196,494
Sales and fish taxes	189,229	-	-	-	-	189,229
Grants	-	-	23,516	-	-	23,516
Other	4,896	-	-	-	-	4,896
Total receivables Less allowance for	202,992	107,699	69,424	34,020	-	414,135
uncollectible accounts	-	(56,543)	(18,316)	(7,640)	-	(82,499)
Net Receivables	\$ 202,992	\$ 51,156	\$ 51,108	\$ 26,380	-	\$ 331,636

4. Capital Assets

Capital asset activity for the year ended June 30, 2017 was as follows:

	Balance July 1, 2016	Additions	Deletions	Jur	Balance ne 30, 2017
Governmental Activities					
Capital assets being depreciated: Buildings Improvements other than buildings Equipment and vehicles	\$ 8,590,637 4,531,869 1,997,618	\$ - 33,084	\$ - 132,736	\$	8,590,637 4,531,869 1,897,966

5. Long-term Debt

General Obligation Bonds

The City of Sand Point issued general obligation bonds for the expansion of the Small Boat Harbor. The general obligation bonds pledge the full faith and credit of the City. Bonds in the amount of \$2,615,000 were issued on March 12, 2013.

All of the bonds outstanding are held by the Alaska Municipal Bond Bank Authority. This State of Alaska agency purchases bonds from municipalities within the State, while simultaneously selling its own bonds to third parties in order to fund the bond purchases.

Bonds currently outstanding are as follows:

Business-type Activities	Interest Rates	Outstanding Balance
Small boat harbor - \$2,615,000, 2013 Series One general obligation bonds, due in annual principal payments of \$65,000 to \$175,000 through 2038	3.8%-5%	\$ 2,370,000

Notes to Basic Financial Statements

Debt service requirements to maturity for the general obligation bonds are as follows:

Business-type Activities

Fiscal Year	Principal		Interest
2018	\$ 70,000	\$	112,980
2019	70,000		110,180
2020 2021 2022	75,000 80,000		106,680 103,680
2022	80,000		100,480
2023-2025	270,000		280,540
2026-2030	550,000		370,650
2031-2035	680,000		223,890
2036-2038	495,000		50,500
Total	\$ 2,370,000	\$ ^	1,459,580

Changes in long-term liabilities for the year ended June 30, 2017 follows:

Governmental Activities	Balance July 1, 2016	Additions Reductions	Balance June 30, 2017	Due Within One Year
Accrued leave Net pension liability	\$ 46,026 1,264,641	\$ 60,293 \$ 48,301 402,912 -	\$ 58,018 1,667,553	\$ 58,018 -

Transfers		
Transfer from the General Fund to -		
Water and Sewer Enterprise Fund for operating expenses	\$	52,500
Total Transfers to Other Funds	ς	52,500
	Ŷ	52,500

8. Defined Benefit (DB) Pension Plan

General Information About the Plan

The City participates in the Alaska Public Employees Retirement System (PERS). PERS is a costsharing multiple employer plan which covers eligible State and local government employees, other than teachers. The Plan was established and is administered by the State of Alaska Department of Administration. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

The Plan is included in a comprehensive annual financial report that includes financial statements and other required supplemental information. That report is available via the internet at http://doa.alaska.gov/drb/pers. Actuarial valuation reports, audited financial statements, and other detailed plan information are also available on this website.

The Plan provides for retirement, death and disability, and post-employment health care benefits. There are three tiers of employees, based on entry date. For all tiers within the Defined Benefit (DB) plan, full retirement benefits are generally calculated using a formula comprised of a multiplier times the average monthly salary (AMS) times the number of years of service. The multiplier is increased at longevity milestone markers for most employees. Police/Fire employees accrue benefits at an accelerated rate. The tiers within the Plan establish differing criteria regarding normal retirement age, early retirement age, and the criteria for calculation of AMS, COLA adjustments, and other OPEB benefits. A complete benefit comparison chart is available at the website noted above.

The PERS DB Plan was closed to new entrants effective June 30, 2006. New employees hired after that date participate in the PERS Defined Contribution (DC) Plan described later in these notes.

Historical Context and Special Funding Situation

In April 2008, the Alaska Legislature passed legislation converting the previously existing PERS plan from an agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. In connection with this conversion, the State of Alaska passed additional legislation which statutorily capped the employer contribution rate, established a state funded "on-behalf" contribution (subject to funding availability), and required that employer contributions be calculated against *all* PERS eligible wages, including wages paid to participants of the PERS Tier IV defined contribution plan described later in these notes.

Alaska Statute 39.35.255 requires the State of Alaska to contribute to the Plan an amount such that, when combined with the employer contribution, is sufficient to pay the Plan's past service liability contribution rate as adopted by the Alaska Retirement Management Board. As such, the Plan is considered to be in a special funding situation as defined by GASB, and management has recorded all pension related liabilities, deferred inflows and outflows of resources, and disclosures on this basis.

The City records the on-behalf contributions as revenue and expense/expenditures in the fund financial statements.

It is important to note that the legislature has the power and the authority to change the aforementioned statute through the legislative process.

Employee Contribution Rates

Regular employees are required to contribute 6.75% of their annual covered salary (Police and firefighters are required to contribute 7.5% of their annual covered salary.

Employer and Other Contribution Rates

There are several contribution rates associated with the pension and healthcare contributions and related liabilities. These amounts are calculated on an annual basis.

Employer Effective Rate: This is the contractual employer pay-in rate. Under current legislation, this rate is statutorily capped at 22% of eligible wages, subject to a wage floor, and other termination events. This 22% rate is calculated on all PERS participating wages, including those wages attributable to employees in the defined contribution plan. Contributions derived from the defined contribution employees are referred to as the Defined Benefit Unfunded Liability or DBUL contribution.

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined and used to calculate annual Plan funding requirements, without regard to the statutory rate cap or the GASB accounting rate. Effective July 1, 2016, the Legislature requires the ARM Board to adopt employer contribution rates for past service liabilities using a level percent of pay method over a closed 25 year term which ends in 2039. This change results in lower ARM Board Rates than previously adopted.

On-behalf Contribution Rate: This is the rate paid in by the State as an on-behalf payment under the current statute. The statute requires the State to contribute, based on funding availability, an on-behalf amount equal to the difference between the ARM Board Rate and the Employer Effective Rate. In the governmental fund financial statements, on-behalf contribution amounts have been recognized as additional revenues and expenditures. In the enterprise fund and government-wide financial statements, the on-behalf amounts reflect revenue and expense only during the measurement period in which the Plan recognizes the payments, resulting in a significant timing difference between the cash transfers and revenue and expense recognition.

GASB Rate: This is the rate used to determine the long-term pension and healthcare liability for plan accounting purposes in accordance with generally accepted accounting principles as established by GASB. Certain actuarial methods and assumptions for this rate calculation are mandated by GASB. Additionally, the GASB Rate disregards all future Medicare Part D payments. For FY17, the rate uses an 8.00% pension discount rate and a 4.30% healthcare discount rate.

Notes to Basic Financial Statements

The GASB Rate and the ARM Board Adopted Rate differ significantly as a direct result of variances in the actuarial methods and assumptions used.

Contribution rates for the year ended June 30, 2017 were determined in the June 30, 2014 actuarial valuation and are as follows:

	Employer Effective Rate	ARM Board Adopted Rate	State Contribution Rate	GASB Rate
Pension	14.96%	20.34%	4.14%	24.49%
Postemployment healthcare (see Note 10)	7.04%	5.80%	0.00%	56.64%
Total Contribution Rates	22.00%	26.14%	4.14%	81.13%

In 2017, the City was credited with the following contributions to the pension plan.

	Measurement Period City FY16	City FY17	
Employer contributions (including DBUL) Nonemployer contributions (on-behalf)	\$ 101,325 46,690	\$ 114,845 51,025	
Total Contributions	\$ 148,015	\$ 165,870	

In addition, employee contributions to the Plan totaled \$25,939 during the City's fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

At June 30, 2017, the City reported a liability for its proportionate share of the net pension liability (NPL) that reflected a reduction for State pension support provided to the City. The amount recognized by the City for its proportional share, the related State proportion, and the total were as follows:

	2017
City proportionate share of NPL State's proportionate share of NPL associated with the City	\$ 2,509,794 268,000
Total Net Pension Liability	\$ 2,777,794

Notes to Basic Financial Statements

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, including the State, actuarially determined. At June 30, 2017, the City's proportion was 0.4490 percent, which was an increase of 0.00332 percent from its proportion measured as of prior measurement date.

For the year ended June 30, 2017, the City recognized pension expense of \$575,784 and on-behalf revenue of \$42,850 for support provided by the State. At June 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	of	Deferred Outflows Resources	of	Deferred Inflows f Resources
Difference between expected and actual experience	\$	231	\$	(27,976)
Changes in assumptions		11,576	•	-
Net difference between projected and actual earnings				
on pension plan investments		246,701		-
Changes in proportion and differences between City				
contributions and proportionate share of contributions		75,540		-
City contributions subsequent to the measurement date		114,845		-
Total Deferred Outflows and Deferred Inflows of Resources	\$	448,893	\$	(27,976)

The \$97,032 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2018	\$ 97,032
2019	43,064
2020	100,852
2021	65,124
	,

Year End June 30

The remainder of this page intentionally left blank.

Actuarial Assumptions

The total pension liability for the measurement period ended June 30, 2016 (City fiscal year 2017) was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions applied to all periods included in the measurement, and rolled forward to the measurement date of June 30, 2016. The actuarial assumptions used in the June 30, 2014 actuarial valuation (latest available) were based on the results of an actuarial experience study for the period from July 1, 2009 to June 30, 2013, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board to better reflect expected future experience.

Actuarial Cost Method	Entry Age Normal - Level Percentage of Payroll
Asset Valuation Method	Invested assets are reported at fair value.
Allocation Methodology	Amounts for FY16 were allocated to employers based on the projected present value of contributions for FY2017-FY2039. The liability is expected to go to zero at 2039.
Investment Return / Discount Rate	8.00% per year (geometric), compounded annually, net of expenses
Salary Scale	Inflation - 3.12% per year Productivity - 0.50% per year Peace Officer/Firefighter - graded by years of service from 9.66% to 4.92%Central All others - graded by age and years of service from 8.55% to 4.34%
Total Inflation	Measured by the consumer price index for urban and clerical workers for Anchorage and is assumed to increase 3.12% annually.
Mortality	Pre-termination - Based on the 2010-2013 actual mortality experience Post-termination - 96% of all rates of the RP-2000 table, 2000 base year projected to 2018 with projection scale BB

The remainder of this page intentionally left blank.

Notes to Basic Financial Statements

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The best estimates of arithmetic real rates of return for each major asset class are summarized in the following table (note that the rates shown below exclude the inflation component):

	Long-term Expected Real Rate of		
Asset Class	Return		
Domestic equity	5.35%		
Global equity (non-us)	5.55%		
Private equity	6.25%		
Fixed income	0.80%		
Real estate	3.65%		
Alternative equity	4.70%		

Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that employer and State contributions will continue to follow the current funding policy which meets State statutes. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 8.00 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00 percent) or 1-percentage-point higher (9.00 percent) than the current rate:

	1% Decrease (7.00%)	D	Current iscount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$ 3,232,487	\$	2,509,794	\$ 1,900,235

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

9. Defined Contribution (DC) Pension Plan

Employees hired after July 1, 2006 participate in PERS Tier IV, a defined contribution plan. This Plan is administered by the State of Alaska, Department of Administration in conjunction with the defined benefit plan noted above. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The Alaska Retirement Management Board may also amend contribution requirements. Included in the Plan are individual pension accounts, retiree medical insurance plan and a separate Health Reimbursement Arrangement account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan. This Plan is included in the comprehensive annual financial report for PERS, and at the following website, as noted above. <u>http://doa.alaska.gov/drb/pers</u>.

Contributions to the DC plan consist solely of employer and employee contributions with no special funding or other nonemployer contributions. In addition, actual remittances to the PERS system require that the City contribute at 22%. After deducting the DC plan contributions (and related OPEB contributions), the remaining remittance (the DBUL) is deposited into the DB plan as noted earlier.

Benefit Terms

Employees are immediately vested in their own contributions and vest 25% with two years of service, plus an additional 25% per year thereafter for full vesting at five years of service.

Employee Contribution Rate

Employees are required to contribute 8% of their annual covered salary. This amount goes directly to the individual's account.

Employer Contribution Rate

For the year ended June 30, 2017, the City was required to contribute 5% of covered salary into the Plan. In addition, during 2017, the State on-behalf contribution rate for OPEB was 1.56%.

The City and employee contributions to PERS for pensions for the year ended June 30, 2017 were \$37,262 and \$59,619, respectively. The City contribution amount was recognized as pension expense/expenditures.

10. Other Post-Employment Benefit (OPEB) Plans

Defined Benefit OPEB

As part of its participation in the PERS DB Plan (Tiers I, II, III), the City participates in the Alaska Retiree Healthcare Trust (ARHCT). The ARHCT is self-funded and provides major medical coverage to retirees of the System. Benefits vary by Tier level. The Plan is administered by the State of Alaska, Department of Administration. Employer contribution rates are established in concert with the Defined Benefit Pension Plan described earlier in these notes.

Notes to Basic Financial Statements

Employer Contribution Rate

The City is required to contribute 8.75% of covered payroll into the OPEB plan. Employees do not contribute to the DB OPEB plans.

Annual Postemployment Healthcare Cost

Actual contributions into the Plan for the last three years were as follows. The amounts reported here include only the employer required contributions and do not include any amounts attributed to the on-behalf contributions by the State. There were no on-behalf contributions to the OPEB Plan in 2017; however, on-behalf contributions to the OPEB plan in 2016 and 2015 were \$19,993 and \$0, respectively.

Actual contributions into the Plan for the last three years were as follows.

Year Ended June 30,		Annual OPEB Costs			% of Costs Contributed
2017 2016	Ş	34,046 66,843	Ş	34,046 66,843	100 % 100 %
2015	Ş	72,473	Ş	72,473	100 %

Defined Contribution OPEB

Defined Contribution Pension Plan participants (PERS Tier IV) participate in the Occupational Death and Disability Plan (ODD), and the Retiree Medical Plan. Information on these plans is included in the comprehensive annual financial report for the PERS Plan noted above. These plans provide for death, disability, and post-employment health care benefits.

Employer Contribution Rates

Employees do not contribute to the DC OPEB plans. Employer contribution rates were as follows for the year ended June 30, 2017:

	Other Tier IV	Police/Fire Tier IV
Retiree medical plan	1.18%	1.18%
Occupational death and disability benefits	0.17%	0.49%
Total Contribution Rates	1.35%	1.67%

In addition, PERS defined contribution members also participate in the Health Reimbursement Arrangement. AS 39.30.370 establishes this contribution amount as "three percent of the average annual employee compensation of *all employees of all employers* in the plan". As of July 1, 2016, for actual remittance, this amount is calculated as a flat rate for each full-time or part-time employee per pay period and approximates \$2,049 per year for each full-time employee, and \$1.31 per hour for part-time employees.

Annual Postemployment Healthcare Cost

In FY17, the City contributed \$41,651 in DC OPEB costs. These amounts have been recognized as expense/expenditures.

11. Landfill Closure and Postclosure Liability

The City operates a local landfill. State and federal laws and regulations require the City to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date the landfill stops accepting waste, generally accepted accounting principles require that the City report a portion of these closure and postclosure care costs each period based on landfill capacity used as of each balance sheet date.

The City has estimated the closure and post closure costs to be \$219,800 with an estimated remaining life through 2036. At June 30, 2017, the City has recognized \$136,251 of this liability on the statement of net position, an increase of \$4,397 from the prior year. The City will recognize the remaining estimated cost of closure and post closure care of \$83,549 as the remaining expected usage is filled. These amounts are based on what it would cost to perform all closure and post closure care in 2017. Actual costs may be higher due to inflation, changes in technology or changes in regulations. The remaining life of the landfill is estimated to be approximately 19 years.

At June 30, 2017 the City has not committed or assigned any fund balance to fund the cost of closure and post closure monitoring, nor have any assets been restricted for this purpose.

12. Risk Management

The City faces a considerable number of risks of loss, including (a) damage to and loss of property and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) environmental damage, (e) workers' compensation; i.e., employee injuries, and (f) medical insurance costs of employees.

The City is a member of Alaska Public Entity Insurance (APEI), a governmental insurance pool. APEI provides the City coverage for property, including building and contents, automobiles, mobile equipment, data processing equipment and boiler and machinery; casualty, including general liability, public officials and employees liability, law enforcement professional liability, auto liability and employee benefit liability; workers' compensation, including employers liability; and commercial blanket bond. The City maintains supplemental marine insurance and firefighter's group accident coverage with insurance companies placed through APEI. The City has no coverage for potential losses from environmental damages.

APEI is a public entity risk pool organized to share risks among its members. Its bylaws provide for the assessment of supplemental contributions from members in the event that losses and expenses for any coverage year exceed the annual contributions and income earned on such contributions for the year. Such supplemental contributions shall be based upon each member's deposit contribution in comparison to the aggregate deposit contributions of all members. There were no supplemental assessments made during the year ended June 30, 2017.

13. Contingencies

Grants

The City has received grants which are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement for expenditures disallowed under the terms of the grant. Management believes that such disallowances for grants, if any, would not be material.

14. New Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates. Management has not fully evaluated the potential effects of these statements, but believes that GASB Statement 75 will result in the biggest reporting change. However, actual impacts have not yet been determined

GASB 75 - Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions -Effective for year-end June 30, 2018, with earlier application encouraged - This statement contains accounting and financial reporting guidelines for OPEB related activities at the participating employer level and generally brings the OPEB reporting rules into alignment with the new GASB 68 Pension rules.

GASB 81 - *Irrevocable Split-Interest Agreements* - Effective for year-end June 30, 2018, with earlier application encouraged - This statement establishes recording and recognition criteria for governments who receive resources pursuant to an irrevocable split-interest agreement.

GASB 83 - *Certain Asset Retirement Obligations* - Effective for year-end June 30, 2019, with earlier application encouraged - This statement addresses accounting and financial reporting for certain asset retirement obligations that are legally enforceable liabilities associated with the retirement of a tangible capital asset.

GASB 84 - *Fiduciary Activities* - Effective for year-end June 30, 2020, with earlier application encouraged - This statement addresses criteria for identifying and reporting fiduciary activities.

GASB 85 - *Omnibus* - Effective for year-end June 30, 2018, with earlier application encouraged - This statement addresses practice issues that have been identified during implementation and application of certain GASB statements. Issues covered include blending of component units, goodwill, fair value measurement and application, and postemployment benefits.

GASB 86 - *Certain Debt Extinguishment Issues* - Effective for year-end June 30, 2018, with earlier application encouraged - This statement addresses accounting and financial reporting for in-substance defeasance of debt when only existing resources are used, as well as accounting and financial reporting for prepaid insurance on extinguished debt.

GASB 87 - *Leases* - Effective for year-end June 30, 2021, with earlier application encouraged - This statement addresses accounting and financial reporting for certain lease assets and liabilities for leases that previously were classified as operating leases. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset.

Notes to Required Supplementary Information

1. General Fund Schedule of Revenues, Expenditures, and Changes in Fund balance

The General Fund Budgetary Comparison Schedule is presented on the modified accrual basis of accounting. The City did not budget for the PERS on-behalf contribution; however accounting principles generally accepted in the United States, require that on-behalf revenue and expenditures be reported in the financial statements, resulting in a budgetary to GAAP basis difference. The PERS on-behalf represents the only reconciling item from budgetary to GAAP basis.

2. Public Employees Retirement System - Schedule of the City's Information on the Net Pension Liability

This table is presented based on the Plan measurement date. For June 30, 2017, the Plan measurement date is June 30, 2016.

There were no changes in benefit terms from the prior measurement period.

There were no changes in assumptions from the prior measurement period.

There was a significant change in the allocation methodology. For the measurement period ended June 30, 2014, the liability was allocated to participating employers based on actual contributions for 2014. For the measurement period ended June 30, 2016, the liability is allocated based on projected contributions for fiscal years 2017-2039, as calculated in the June 30, 2014 actuarial valuation.

3. Public Employees Retirement System - Schedule of the City's Contributions

This table is based on the City's contributions for each fiscal year presented. These contributions have been reported as a deferred outflow on the Statement of Net Position.

This table is intended to present 10 years of information. Additional years' information will be included as it becomes available.

This page intentionally left blank.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Honorable Mayor and City Council City of Sand Point, Alaska

Report on the Financial Statements

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sand Point, Alaska (City of Sand Point) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise City of Sand Point's basic financial statements, and have issued our report thereon dated January 9, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Sand Point's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Sand Point's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Sand Point's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Sand Point's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BDO USA, LLP

Anchorage, Alaska January 9, 2018

The City of Sand Point

Schedule of Findings and Responses Year Ended June 30, 2017
